

Legends of our countries A Comenius school project 2011 – 2013

2014

*The partners in this project were Gimnazjum nr 4 im. Jerzego Brauna w Tarnowie (Poland),
Instituto de Educación Secundaria Fray Luis de Granada (Spain),
Istituto di Istruzione Superiore I.S. Capo D'Orlando (Italy)
and Albert-Schweitzer-Schule Gymnasium in Alsfeld (Germany).*

*This calendar presents some of the results of the project and impressions from the project meetings in the participating schools and their surroundings.
We have worked together to show the importance and the richness of our own cultures. We think we have reduced prejudices by learning about the other cultures and seeing the similarities and differences of our cultures and thereby realizing the diversity of the European culture.*

Sharing legends has increased curiosity about history and developed imagination and the perception of reality.

Teachers and students have found the opportunity to use foreign languages in context and this has increased the motivation for language learning and practice.

We have hopefully made some small steps towards bringing the people of Europe a little closer together.

Comenius
